

# The BOSS Systems

## *The 'Brown Optimized Smart Space' Systems*

Brown International Corporation is introducing the BOSS systems, which utilizes state of the art electronic controls for efficient fruit handling and equipment clean-up. The compact design will gently distribute and transfer a high volume of fruit to a specially designed

extractor feed mechanism. The fruit feed and extraction rate are electronically monitored and controlled which eliminates the need for a distribution belt and return fruit system.

### ***BOSS Systems Advantages***

- Reduced Footprint
- 
- Improved Fruit Handling
- 
- Enhanced Extraction Efficiencies
- 
- Less Equipment/ Reduced Capital Cost
- 
- Reduced Clean-Up Time and Chemicals
- 
- Chemical Recovery Capabilities
- 
- Management Tools to Optimize Plant Operations
