

BOSS System

The 'Brown Optimized Smart Space' Systems

BOSS Systems

BOSS systems, which utilizes state of the art electronic controls for efficient fruit handling and equipment clean-up. The compact design will gently distribute and transfer a high volume of fruit to a specially designed extractor feed mechanism. The fruit feed and extraction rate are electronically monitored and controlled which eliminates the need for a distribution belt and return fruit system.

- ✓ Improved Fruit Handling
- ✓ Enhanced Extraction Efficiencies
- ✓ Less Equipment/ Reduced Capital Cost
- ✓ Reduced Clean-Up Time and Chemicals
- ✓ Chemical Recovery Capabilities
- ✓ Management Tools to Optimize Plant Operations
